

# FALL BULL SALE

AT THE FARM • 1879 BOBCAT LANE • FRANKFORT KANSAS

SAT | OCTOBER 28, 2023 | 2 PM

Dear Friends,

We would like to extend an invitation to our 2023 Fall Bull Sale. We greatly appreciate your interest and continued support in our program.

These bulls are sired by some of the best AI sires in the country as well as out of some of the best herdsires, we feel that moves our cowherd in the right direction. These bulls were weaned last November and

developed along with the steers until January, then grown in a large area to insure excellent longevity, semen quality, top quality feet and structural soundness. Sure, we could have these bulls weighing much more, however we feel these bulls should work for our customers and get a lot of cows bred, and not be fat and lazy losing a few hundred pounds in the process. Our aged bulls hold up well for our clients for the long term. You will read about bulls in our catalog that will make excellent replacement females, however that is exactly what they will do! With several generations of AI in pedigrees we use sire that have longevity in the herd. We see the genetics we put into our program and study them long and hard before use.

We've all been thankful for the higher cattle prices this year. With cull bulls selling at record highs, there has never been a greater time to trade your aged, used bull in for new, fresh genetics. The bulls will have a semen evaluation, breeding vaccines, and wormed ready for turn out. Bulls may be kept at Cline Cattle Co. until December 1.

We are more than happy to discuss with and assist you in finding the right bull to meet your herds goals. Let us know how we can be of service to you throughout the year as well. If we can assist you with marketing your Cline Cattle Co genetics we are glad to help.

Thanks for your interest, We looking forward to visiting with and seeing you sale day,

Lance and Lynette Cline | Austin and Shenan Cline

An all around Red Angus bull by the highly proven ABS Sire Glacier Marias 548. 2K should be a great female maker and his sons should perform well.

# 269

---

9155G son.

An outstanding polled/scurred son of CL1 Domino 9155G out of an beautiful commercial cow who does a great job each year with a fabulous udder. This bull will raise big, heavy baldy steers and your favorite replacement females. Our top weaning calf in this years group!

CL1 DOMINO 9155G, the outstanding  
sire of the Hereford lots.

CL 1 DOMINETTE  
8136F, the  
dam of 286K.

# 286K

9155G/215Z/862U/4102P

Sired by CL1 Domino 9155G and by a full sister to the CL1 Dominette 450B cow who has raised some major herdsires for Coopers in Montana.  
286K's dam is a beautiful 215 daughter that is a herd treasure.
